

**ALEUT FIELD SERVICES TO PERFORM
IT INFRASTRUCTURE RENOVATION AT
WALTER REED NATIONAL MEDICAL MILITARY CENTER**

FOR IMMEDIATE RELEASE

COLORADO SPRINGS, CO (June 1, 2017) – The U.S. Army Corps of Engineers, Huntsville, has selected Aleut Field Services, LLC (AFS) to perform IT Infrastructure Renovation at Walter Reed National Medical Military Center, Bethesda, Maryland. The sole-source 8(a) set-aside contract valued at \$9 Million begins mid-June 2017, with completion estimated by September 2018.

AFS will provide engineering design, repair, renovation, and construction of the ISP/OSP infrastructure system located at Walter Reed National Military Medical Center Bethesda, Maryland so that, given the constraints of the site, a complete and usable system meets all requirements of the U.S. Army Corps of Engineers.

“AFS is honored to have been selected by the Department of the Army to perform critical infrastructure renovation for this distinguished national military facility,” said Sam Cole, president of AFS parent company Aleut Management Services, LLC.

With headquarters in Colorado Springs, Colorado, Aleut Field Services (AFS) is a full-service 8(a) Small Disadvantaged Business that delivers Engineering, Procurement, Construction (EPC) and Maintenance Services to customers in the Infrastructure/Build, Energy, Power, and Water environment.
